

Fishery Conservation and Management

§ 635.6

cooperation with states and may include such methodologies as telephone, dockside or mail surveys, mail in or phone-in reports, tagging programs, or mandatory check-in stations. A census or a statistical sample of persons fishing under the Angling category may be used for these alternative reporting programs, and owners of selected vessels will be notified by NMFS or by the cooperating state agency of the requirements and procedures for reporting BFT. Each person so notified must comply with those requirements and procedures. Additionally, NMFS may determine that BFT landings reporting systems implemented by the states, if mandatory, at least as restrictive, and effectively enforced, are sufficient for Angling category quota monitoring. In such case, NMFS will file with the Office of the Federal Register for publication notification indicating that compliance with the state system satisfies the reporting requirement of this paragraph (c).

(d) *Tournament operators.* A tournament operator must notify NMFS of the purpose, dates, and location of the tournament conducted from a port in an Atlantic coastal state, including the U.S. Virgin Islands and Puerto Rico, at least 4 weeks prior to commencement of the tournament. NMFS will notify a tournament operator in writing, when his or her tournament has been selected for reporting. The tournament operator that is selected must maintain and submit to NMFS a record of catch and effort on forms available from NMFS. Tournament operators must submit completed forms to NMFS, at an address designated by NMFS, postmarked no later than the 7th day after the conclusion of the tournament and must attach a copy of the tournament rules.

(e) *Inspection.* Any person authorized to carry out enforcement activities under the regulations in this part has the authority, without warrant or other process, to inspect, at any reasonable time, catch on board a vessel or on the premises of a dealer, logbooks, catch reports, statistical records, sales receipts, or other records and reports required by this part to be made, kept, or furnished. An owner or operator of a fishing vessel that has

been issued a permit under § 635.4 must allow NMFS or an authorized person to inspect and copy any required reports and the records, in any form, on which the completed reports are based, wherever they exist. An agent of a person issued a vessel or dealer permit under this part, or anyone responsible for off-loading, storing packing, or selling regulated HMS for such permittee, shall be subject to the inspection provisions of this section.

(f) *Additional data and inspection.* Additional data on fishing effort directed at Atlantic HMS or on catch of Atlantic HMS, regardless of whether retained, may be collected by contractors and statistical reporting agents, as designees of NMFS, and by authorized officers. A person issued a permit under § 635.4 is required to provide requested information about fishing activity, and a person, regardless of whether issued a permit under § 635.4, who possesses an Atlantic HMS is required to make such fish or parts thereof available for inspection by NMFS or its designees upon request.

[64 FR 29135, May 28, 1999, as amended at 64 FR 37704, July 13, 1999; 66 FR 30653, June 7, 2001; 66 FR 42804, Aug. 15, 2001; 67 FR 45400, July 9, 2002]

§ 635.6 Vessel and gear identification.

(a) *Vessel number.* For the purposes of this section, a vessel's number is the vessel's official number issued by either by the U.S. Coast Guard or by the appropriate state agency.

(b) *Vessel identification.* (1) An owner or operator of a vessel for which a permit has been issued under § 635.4, other than a permit for the Atlantic tunas Angling category, must display the vessel number—

(i) On the port and starboard sides of the deckhouse or hull and on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft.

(ii) In block arabic numerals permanently affixed to or painted on the vessel in contrasting color to the background.

(iii) At least 18 inches (45.7 cm) in height for vessels over 65 ft (19.8 m) in length; at least 10 inches (25.4 cm) in height for all other vessels over 25 ft (7.6 m) in length; and at least 3 inches

§ 635.7

50 CFR Ch. VI (10–1–02 Edition)

(7.6 cm) in height for vessels 25 ft (7.6 m) in length or less.

(2) The owner or operator of a vessel for which a permit has been issued under § 635.4 must keep the vessel's number clearly legible and in good repair and ensure that no part of the vessel, its rigging, its fishing gear, or any other material on board obstructs the view of the vessel's number from an enforcement vessel or aircraft.

(c) *Gear identification.* (1) The owner or operator of a vessel for which a permit has been issued under § 635.4 and that uses a handline, harpoon, longline, or gillnet, must display the vessel's name, registration number or Atlantic Tunas permit number on each float attached to a handline or harpoon and on the terminal floats and high-flyers (if applicable) on a longline or gillnet used by the vessel. The vessel's name or number must be at least 1 inch (2.5 cm) in height in block letters or arabic numerals in a color that contrasts with the background color of the float or high-flyer.

(2) An unmarked handline, harpoon, longline, or gillnet, is illegal and may be disposed of in an appropriate manner by NMFS or an authorized officer.

(3) In addition to gear marking requirements in this paragraph (c)(1), provisions on gear marking for the southeast U.S. shark gillnet fishery to implement the Atlantic Large Whale Take Reduction Plan are set forth in § 229.32(b) of this title.

[64 FR 29135, May 28, 1999, as amended at 66 FR 42804, Aug. 15, 2001]

§ 635.7 At-sea observer coverage.

(a) *Applicability.* NMFS may select for observer coverage any vessel that has an Atlantic HMS, tunas, shark or swordfish permit issued under § 635.4. Vessels permitted in the HMS Charter/Headboat and Atlantic Tunas Angling and Charter/Headboat categories will be requested to take observers on a voluntary basis. When selected, vessels issued any other permit under § 635.4 are required to take observers on a mandatory basis.

(b) *Selection of vessels.* NMFS will notify a vessel owner, in writing, when his or her vessel is selected for observer coverage. Vessels will be selected to provide information on catch, bycatch

and other fishery data according to the need for representative samples.

(c) *Notification of trips.* The owner or operator of a vessel that is selected under paragraph (b) of this section must notify NMFS, at an address designated by NMFS, before commencing any fishing trip that may result in the incidental catch or harvest of Atlantic HMS. Notification procedures and information requirements such as expected gear deployment, trip duration and fishing area will be specified in a selection letter sent by NMFS.

(d) *Assignment of observers.* Once notified of a trip, NMFS will assign an observer for that trip based on current information needs relative to the expected catch and bycatch likely to be associated with the indicated gear deployment, trip duration and fishing area. If an observer is not assigned for a fishing trip, NMFS will issue a waiver for that trip to the owner or operator of the selected vessel, so long as the waiver is consistent with other applicable laws. If an observer is assigned for a trip, the operator of the selected vessel must arrange to embark the observer and shall not fish for or retain any Atlantic HMS unless the NMFS-assigned observer is aboard.

(e) *Requirements.* The owner or operator of a vessel on which a NMFS-approved observer is embarked, regardless of whether required to carry the observer, must comply with §§ 600.725 and 600.746 of this chapter and—

(1) Provide accommodations and food that are equivalent to those provided to the crew.

(2) Allow the observer access to and use of the vessel's communications equipment and personnel upon request for the transmission and receipt of messages related to the observer's duties.

(3) Allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

(4) Allow the observer free and unobstructed access to the vessel's bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store fish.

(5) Allow the observer to inspect and copy the vessel's log, communications logs, and any records associated with
